

Require highly skilled senior resources for an initiative but cannot justify hiring a contractor or member of staff on a full time basis?

PLC Partners Consulting as a Service

Our Consultancy as a Service approach enables you to have access to the best and most highly skilled people when and how often you might require. Often it is difficult to meet demand with an already stretched team – we work with you to flex your team as needed to ensure that you meet your goals.

At PLC we can provide highly skilled flexible resources that can seamlessly fit into your organisation and immediately add value.

Our people are multi-disciplinary and have extensive experience across numerous sectors, including Government, Financial Services, Telecoms, Media, Retail and more.

We specialise in senior people who can lead and add value through their extensive experience; Programme and Project Managers, Change Practitioners, Business Analysts, Test Managers, Trainers and Technical specialists.

All our people follow the PLC Partners Consulting approach which is adapted from PMI™ methods and proven in large projects. We concentrate on your success and profitability and become a member of your team for the duration of the engagement.

PLC are an Irish based organisation specialising in the management and implementation of business and technology change solutions to organisations across industry sectors. Our teams have successfully led many critical, large, and complex projects for multi-national organisations.
